

Setting up Daymap Connect/Companion

The Daymap Companion app enables parents/caregivers to view their student's timetable, lesson attendance, assignments, results and more.

- Step 1: Go to <https://nurihs.daymap.net/daymapconnect/>
- Step 2: Click 'Forgot your password'
- Step 3: Enter the email address that you have provided the school with and continue with Step 4.

NOTE: If you have not provided the school with your email address, you will need to provide this before being able to attempt the following steps. Please phone the school on (08)8562 2022 and select the prompt for 'Student Support', then provide them with your email address. Adding of an email address to your Caregiver/Parent account generally takes 24-hours, which means you'll need to start from Step 1 again the following day.

- Step 4: Click 'Reset password' – this will send you an email with your username for Daymap and a link to setup your password. (If you do not receive the email, check your 'junk' email folder. If you are still unable to find the email you may need to contact NHS to update your details).
- Step 5: Click the link provided in the email from Daymap.
- Step 6: Enter a new password for your Daymap account. Your account should now be registered.
- Step 7: Download the Daymap Companion app to your device (for [Android](#) or [Apple](#)).
- Step 9: Enter your username (issued at Step 4) and password (created at Step 6). You should now be logged into the Daymap Companion app.
