Philosophy

At Elizabeth Park Preschool, we believe every child deserves a strong sense of belonging, to be deeply known and valued, and to grow with confidence as they learn and discover who they are. Guided by the Early Years Learning Framework, we nurture children's being and becoming through warm, responsive relationships, play-based learning and a trauma-informed approach that prioritises safety, equity and wellbeing.

We honour and learn from Aboriginal perspectives and acknowledge that we learn, play and grow together on Kurna Land, developing children's respect for Country, culture and community. We celebrate each child's voice, strengths and identity, and work in genuine partnership with families and our community to support every child to thrive.

Our preschool is a joyful, inclusive place where children are curious, brave, kind and capable, where learning is meaningful, relationships matter, and strong foundations for lifelong learning and wellbeing are built.
