

20 August 2026

Dear families,

Modbury School P-6 partnered with EduNet who manages Modbury School's P-6 BYOD Portal for our families in the purchasing of Chromebooks. Partnering with EduNet allows families to purchase a commercial Chromebook for their child's schooling directly through the EduNet BYOD Portal. EduNet has prepared information for our families, which is attached to this note. EduNet also offers finance options to support families and this is explained in the attached information.

As part of our BYOD program at Modbury School P-6, all Year 3-6 students are required to have a Chromebook. This allows for online learning through Google Classroom and other online applications, via the curriculum learning program of the teachers.

Chromebooks can only be purchased through Modbury School P-6's BYOD Portal via EduNet, as they are providing a commercial Chromebook as opposed to a retail one. Please note: parents are unable to purchase a Chromebook elsewhere (eg: JB HiFi) for their child to use as school as it will be unable to be enrolled in IT management.

For our parents of students who are in Year 2, you are able to order through EduNet's BYOD portal to purchase your child's Chromebook for 2027 now. Orders can be placed now to ensure you have the device ready for your child to start school in 2027. Ordering closes on Thursday 26<sup>th</sup> November 2026 to ensure we receive the devices at the start of the 2027 school year.

All orders placed will be delivered to the school and setup by IT management in early January 2027. These devices can then be picked up by families before the start of school in 2027.

Warm regards,

Sara Slater
