Where do our program ideas come from?

Code	Explanation
L.O.	L.O. stands for learning outcome/s. Each of the programmed activities have learning outcomes which they relate to. These learning outcomes come from the National Quality Framework approved learning frameworks. These include the Early Years Learning Framework (EYLF), for children 5 years of age or younger, and My Time, Our Place Framework (MTOP), for school aged children. For more information on these frameworks, please follow the links below. EYLF - EYLF-2022-V2.0.pdf (acecqa.gov.au) MTOP - MTOP-V2.0.pdf (acecqa.gov.au)
National Days	Including National and International "special days" can support childrens learning, wellbeing and engagement in meaningful ways. It builds cultural awareness and inclusion, creates engaging learning opportunities, supports My Time Our Place Framework, encourages community connections, promotes childrens voice and social responsibility.
Variety the Childrens Charity	Including days connected to Variety the Childrens Charity in our program is valuable because it promotes inclusion, empathy, community awareness and supports children of all abilities.
Extension or Ext	Ext is short for extension. When the program says 'ext' or 'extension', it means that the program activity is an extension of a learning observation completed by educators for children. Next to extension is the child/ren's initials who were involved in the original learning observation, and the extension will therefore be applicable to them.
Proposal Winner	Proposal winner refers to children who have come up with an idea for vacation care and they have come up with a proposal and written it up and given it to Ali (Director). Each child is offered the opportunity to put forward proposals each school holidays. Submitted proposals are then read and reviewed by OSHC staff and suitable proposals for the program are selected and programmed into the respective vacation care program.
Family Input	'Family Input' highlights ideas and suggestions that have come straight from you! Suggestions are collected through surveys, conversations and communications such as seesaw. Advisory and Governing Council are also able to contribute to program ideas.
